Revolutionary Function
Solve Programming Dilemma

IMMO Data Tool (File Make Key)

For some cars, key programming and other settings can't be finished via OBD II. KEY TOOL PLUS gives amazing strength to solve the dilemma by delivering File Make Key function which can be used to add keys for them. This very function features generating transponder via reading related transponder data of the car immo module directly.

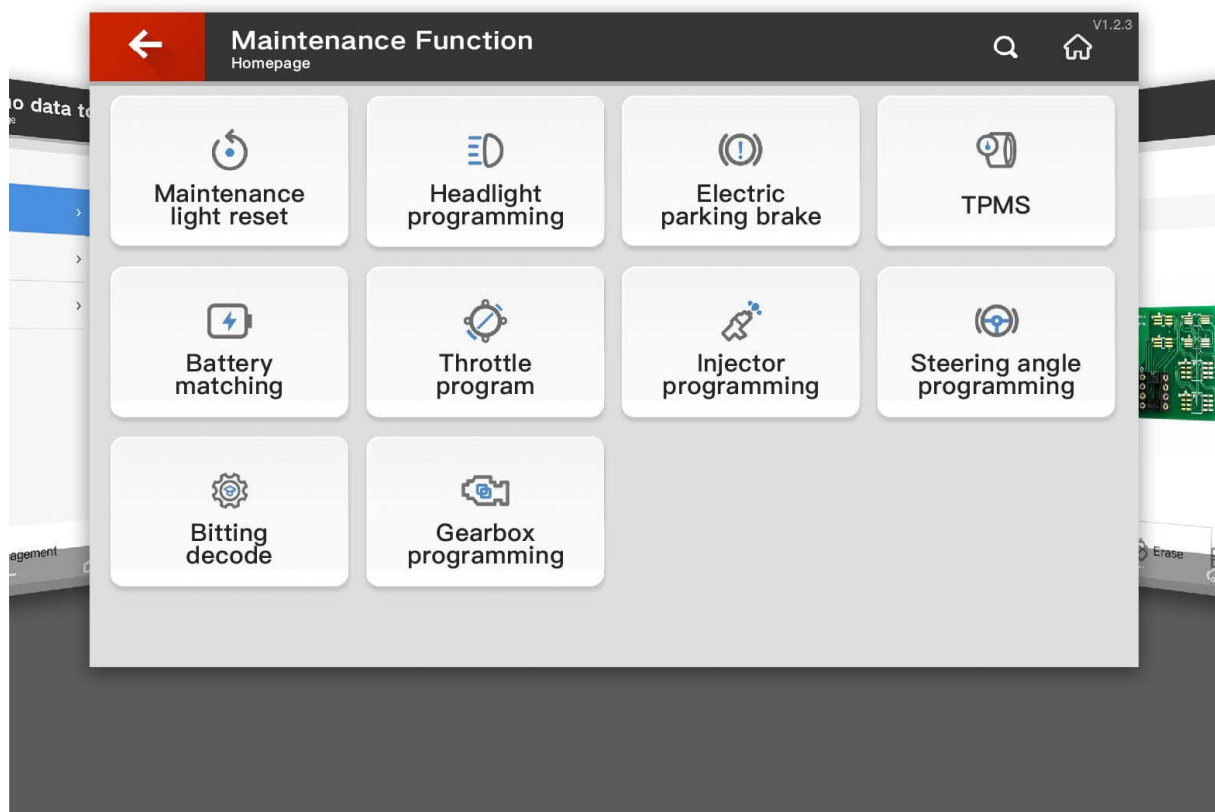

Example: Magotan/CC 48 transpnder File Make Key
